

eL

Moving longer loads with a lighter footprint.
LWB electric utility vehicle.

eL Moving longer loads with a lighter footprint. Long wheel base electric utility vehicle.

The eL is the long wheel base big brother of the eS and is the ideal solution for businesses looking to operate medium-sized utility vehicles and reduce their carbon footprint.

From its superior maneuverability to its versatility, the eL quietly functions in almost any work environment, including indoors, as it emits no exhaust emissions.

The open, curved cabin provides a spacious interior and the high-level driving position and oversized windscreen gives the driver excellent all-round visibility.

With a maximum payload of 318 KG and a 70 x 48 inch flat bed its ideal for carrying bulky and heavy loads. The open, curved cabin provides a spacious interior and the high-level driving position and oversized windscreen gives the driver excellent all-round visibility.

The eL has a top speed of 30mph and a roaming range of 30 miles per charge, which is ideal for most city delivery conditions. Up to 100% corporation tax write-off in year one. Many optional extras are available including a rear mounted enclosed cargo carrier box.

GEM electric cars are exclusively distributed in the UK by GEM Cars Ltd.
