

eS

Moving heavy loads with a light footprint.
2 seat electric utility vehicle.

Printed on 100% Recycled Media

Moving heavy loads with a light footprint. 2 seat electric utility vehicle.

From its functionality to reliability the eS is the ideal solution for businesses looking to operate small utility vehicles and reduce their carbon footprint.

From its superior maneuverability to its versatility, the eS quietly functions in almost any work environment, including indoors, as it emits no exhaust emissions.

The open, curved cabin provides a spacious interior and the high-level driving position and oversized windscreen gives the driver excellent all-round visibility.

With a maximum payload of 150 KG and a 39 x 48 inch flat bed its ideal for light industrial or postal use and creates a curious crowd wherever it goes making it ideal for promoting your business too.

The eS has a top speed of 30mph and a roaming range of 30 miles per charge, which is ideal for most city delivery conditions. Up to 100% corporation tax write-off in year one. Many optional extras are available including a rear mounted enclosed cargo carrier box.

GEM electric cars are exclusively distributed in the UK by GEM Cars Ltd.
